Subject: I want UBER

Dear PSC,

I am VERY disappointed by the actions of the PSC this week and request that your decision be reversed immediately.

Removing ridesharing from South Carolina harms the tens of thousands of riders who rely on the Uber platform for safe, low-cost rides.

Taxi service is VERY limited in our area and UBER has provided us with a great service by coming to our state. SC riders DESERVE the right to choose.

I want continued access to the safest and most affordable rides on the road and UBER provides this. The people of my state want UBER. Let our voices be heard.

Sincerely,

Naomi Andrews

Subject: UBER

As a tax paying citizen of this state, I find it difficult to believe the cease and desist order for UBER!!! Cab service in Charleston is a complete and utter joke. The cars are old, service is completely unreliable and most if he drivers are downright rude. Not to mention the ones who openly carry firearms while driving their cab. I have used Uber 5 times in 2 months ~ the service has been phenomenal. 3 of those 5 times I would have been drinking and driving instead because you simply cannot get a cab in Charleston when and where you need it. Please let Uber run their business to the standards they committed throughout major cities in the rest of the world. I do not wish to have this letter published.

Please allow Uber to continue to operate in South Carolina. People need an alternative to the regular mode of transportation. Uber is safe, easy and fast. Taxi cabs are not as readily available and the rates are out of control. the fact that you don't need cash for Uber is the best feature of all. Allow us to continue to move to the future and stay away from the past.

Thank you for your time.

I feel we have the right to have Uber in SC. They are all over in every major city with great success. And Charleston has been voted the #1 city three times in a row. This is absurd not to allow them to exist here. They are legitimate. And they rate the customer! They are picky on who they pick up. If this company can exist in NYC, were you have NYC cabs, you can have Uber in Charleston.

Thank you.
